THE GUIDE
TO THE
EXHIBITORS
OF SPAIN

ASCER

ASCER, the ceramic tile manufacturers' association in Spain, represents 175 member companies, that is, 98% of the national production. Their purpose is to support, represent and promote the general and common interests of the ceramic tile sector, providing a wide set of services to its members, as well as combined activities which enable the companies to obtain superior results

You can contact us at:

TILE OF SPAIN

As the voice of the industry, ASCER promotes ceramic tiles through the collective brand, "Tile of Spain". This is a joint effort of the members of ASCER, with the support of the Spanish Institute of Foreign Trade (ICEX). While every tile producer promotes and markets their own brands individually, "Tile of Spain" represents, as a generic brand, their combined values such as the choice of excellent raw materials and the highest possible quality standards.

The promotional campaign is designed to increase awareness of the excellence and benefits ceramic tiles from Spain offers. Trade shows are an important part of this campaign, and the presence in major exhibitions like Cevisama, Coverings, Cersaie or Mosbuild is a good example. There is also an advertising campaign in international design and architectural magazines, the free magazine Ceraspaña, editor junkets to Cevisama in Spain, and an ambitious program of educational seminars both for the specification and the distribution markets.

TILE OF SPAIN WELCOMES YOU *TO CERSAIE*

Spain is innovation. It is no secret that Spain has a long history in the field of ceramics, pioneering new techniques for centuries. Although today's industry has its origin in this noble handcrafted tradition, the process has evolved over the last 30 years into a leading high-tech business with great success in today's world markets.

*As seen in previous years, the Spanish presence at **Cersaie** is the major foreign contingent at the exhibition. This year the Spanish pavilion will showcase 80 exhibitors in more than 7,800 square meters.*

See, touch, feel and experience our ceramic tiles in any of our exhibitors' spaces. In previous years, most new innovations have emerged at the hands of Spanish companies - digital inkjet printing systems, rectified and slim tiles. This will continue and most of the new innovations to come will emerge once more from Spain. The Spanish ceramic industry's technological achievements offer consumers greater added value and foster a sustainable and eco-friendly built environment.

***Cersaie 2010** was the debut venue in Italy for Tile of Spain new marketing campaign with the message **Yes, we choose Spanish Ceramic**. A strong statement, yes. But this is because we are confident that Spanish ceramic is the ceramic of choice not only because of our products' modern designs but also because of our boundless creativity, ability to innovate, our constant technological innovations and our commitment to the environment.*

***Tile of Spain**, a quality product that brings you new trends, applications and architectural uses to create spaces with more human dimension. We hope that you will visit us and that you will enjoy a brief taste of what Spain has to offer.*

PRODUCTS
FRITS, GLAZES, CERAMIC COLOURS
AND NANOTECHNOLOGY PRODUCTS

NEW PRODUCTS
SPHERICAL, IRISJET, NANOSMART (ALL
REGISTERED TRADEMARK).
SPHERICAL: DRY GLAZES IN POWDER,
ATOMISED, EASY TO APPLY (GRANULLER, ...).
DRY GLAZES WHICH PROVIDE MAXIMUM
NATURALNESS TO CERAMIC PROPOSALS,
BOTH FOR FLOOR AND FOR WALL. THEY ARE
COMPATIBLE WITH ANY TECHNOLOGY.
PERFECTLY FIT INTO OTHER GLAZES,
PIGMENTS OR INKS. THEY MAXIMIZE THE
IRIDESCENT, LUSTER, REACTIVE, METALLIC,
AND NONSLIP EFFECTS, ALLOWING THE
LAPPING OR POLISHING.
IRISJET: QUIMICER'S GLAZES AND COLOURS
FOR DIGITAL PRINTING
NANOSMARTS: "SMART MATERIALS" WHICH
MAKE POSSIBLE TO DESIGN FINISHED
PRODUCTS WITH TECHNICAL SPECIFICATIONS
"A LA CARTE". AS AN EXAMPLE, WE HAVE
USED THIS FAMILY OF PRODUCTS TO PROVIDE,
CHANGE OR STRENGTHEN TECHNICAL
CHARACTERISTICS OF ALL LINES OF WORK
THAT WE WILL SHOW IN CEVRSAMA 2011
